WEB DEVELOPMENT – BOOTCAMP

COURSE OVERVIEW.

Web developers act as a vital bridge between the design of a website and back-end coding to create a seamless user interface by applying traditional design methods to emerging technologies while being flexible, creative, and quick to respond to the design challenges of the ever-changing digital landscape. With the knowledge, skills, and experience necessary to design and develop web content for all digital platforms, graduates will be familiar with the latest trends and techniques when entering the workforce.

ENTRY REQUIRMENTS

+ Live Online or in Person Interview
+ 18 year of age or older
+ An Ontario Secondary School Diploma or equivalent, or Mature Students that pass a Wonderlic Scholastic Level Exam.

LEARNING OUTCOMES.

AFTER THIS COURSE, YOU WILL BE ABLE TO:

+ Use best practices and tools to design and develop dynamic, rich-media content.
+ Design a media project (interface, navigation, graphics, text treatment) using current best practice design and development principles and applying conceptual and theoretical frameworks.
+ Contribute to the development, budgeting, planning, and professional presentation of an interactive media project.
+ Complete both individual and collaborative interactive media projects effectively
+ Contribute to the assessment of the requirements of an interactive media project.
+ Build effective and dynamic Web sites and/or mobile applications.
+ Identify and analyze ethical and professional issues arising in an online environment.
+ Apply research and conceptual skills to propose possible solutions for mobile/multimedia/Web development problems.
+ Use creative and critical thinking techniques in the effective design, development, and implementation of an interactive media project.
+ Contribute to the assessment of the financial, technical, and artistic success of an interactive media project.

To help you retain information, you'll learn these topics in small seminar classes, listen to lectures by guest speakers, partake in external competitions and industry visits, present research reports and more.

By enrolling in the course, you will learn from top industry professionals, engage in real world projects with community partners, team up with students from our other programs, network and build connections with hiring partners and professionals in the IT Industries, and build a robust portfolio with tangible results to jumpstart your career.
